12th December 2023

Your kindness means everything!

Dear Cawthorne Choral Society,

On behalf of Support Dogs, our trainers, dogs, volunteers and the hundreds of families we support, we want to say a huge thank you for raising a wonderful of £523.00 at your recent carol concert.

We are incredibly grateful for your belief and commitment in our work.

As a charity we are committed to working hard to achieve vital life-saving services for those affected by autism, epilepsy or disability, but these achievements rely entirely on the wonderful kindness of people like you. It is only thanks to your help that we can keep reaching those families in desperate need of our care.

Every year we face an increase in families needing our help and with the strength of your support behind us we know we can keep changing the lives of children and adults across the country, creating new partnerships and providing over 600,000 hours of lifesaving support each year.

Your support during this difficult time is especially appreciated. It will keep people safe; it will help people to have better, happier lives. It will allow us train and care for amazing, life changing support dogs.

Thank you for all your support and kindness. It means so much.

Very best wishes and Merry Christmas,

Tess Thompson
Community Fundraising Manager
